

Catalog# BP-50156

Protein G -MMAE (cleavable)

Description: Protein G conjugated with -VC-PAB-MMAE

Product Details	
Reactivity	Bind to most mammalian immunoglobulins primarily through their Fc regions.
Source	<i>E. coli</i>
Type	Recombinant
M.W.	~21,600 (Apparent MW by SDS-PAGE: 32,000)
Measurement	A280 of 0.1% solution: 1.0
Isoelectric point (pI)	4.5
Conjugate	conjugated with -VC-PAB-MMAE
Form	Liquid
Concentration	1 mg/ml
Purification	Size Exclusive Column
Storage buffer	20 mM Sodium Borate, 6% Trehalose, pH8.0
Storage conditions	4°C for short time, -20°C or -80°C for long time.
